

Our Earth—Our Home

**DVD
Now Available**

Based on Elizabeth Johnson's lecture:

"Women, Earth and Creator Spirit"

All diverse strands in the web of life are expressions of the creative power of the cosmos which is ultimately empowered by the Creator Spirit. The enormous diversity of species itself points to the inexhaustible richness of the Creator, whose imaginative goodness these species represent. (P 39)

Creation spirituality reminds us that all creation is sacred. All that exists has emerged as an expression of God's Word. The entire cosmos bears the pattern of God's Wisdom. Everything everywhere has been touched by God, the Creator (see Isaiah 6:3).

Emmy Silvius and **Mary Burke** fmm presented a four-part PowerPoint series at St Timothy's Catholic Church in Forest Hill (VIC) based on **Elizabeth Johnson's** Lecture titled **"Women, Earth and Creator Spirit."**

So as to allow as many groups and/or individuals as possible to access this inspirational message a DVD of the presentations along with further resource material has now been produced. This DVD can be viewed on the computer as well as a DVD player. Additional files are in pdf format.

After receiving a copy of the DVD Elizabeth Johnson wrote the following to Emmy and Mary:

Many warm thanks for sending me the finished DVD "Our Earth - Our Home." It is well-done and beautiful, and hopefully will reach the mind and hearts of many people. You deserve to be congratulated! I hope it has wings and goes far.

The purpose of the DVD is to provide food for thought and inspiration for action.

A donation of \$20 is suggested to cover production and distribution expenses.

Enquiries + Order forms as well as brochures can be obtained by contacting
